

# Year Group Newsletter

## Friday 21st June 2021

YEAR TWO  
YEAR  
GROUP  
NEWSLETTER

### Next week we will be learning about.....

Maths - In Maths, we will be looking at numbers to 100, including counting to 100 and representing numbers to 100 in a variety of ways

Writing - We will be continuing to practise our WAGOLL as well exploring nouns and looking at the difference between a sentence and a fragment of a sentence.

Reading - We will continue with our class reader 'George's Marvellous Medicine', completing short activities relating to the text

Science - As part of our 'Materials' topic, we will be looking at the materials everyday objects are made from and why this material is suitable for its use

Geography - We will be exploring UK coastlines and the different types of beaches found there

PE - Our topics for this half term will be Gymnastics and Multi-skills

### Star of the week:

2CA - Kevin

2A - Florence

2RB - Sienna

## Homework

**Reading:** We will be assessing all children in phonics next week. For now, we have used their phonics books to read with a partner along with the book. These will be checked on Monday.  
**My Maths:** A task has been set for the children to complete which relates to work we've done in class today.  
**Edshed** - spellings will be set on Edshed **from next week.**

## Parent Helpers

Thank you to those parents/grandparents who have offered to come in one afternoon every week to listen to children read.

If you are able to offer an afternoon, please let your child's class teacher know. This will be to work across the year group listening to children from all three classes.

We are currently awaiting a form that volunteers will need to complete and we will get this to those that have offered ASAP.

## Reminders/messages

Request for art resources: Plastic bottles/ containers

This term, our Art topic is based on artists who have used the ocean and environmental concerns as inspiration for their work, such as Tony Capellan. The children will be making boats that float using recycled / found materials to create boats to turn the waste materials into something useful!
