

Reception go to 'China'

We discovered a suitcase in our classroom. We looked for clues to see who it might be from or where it has come from... we found a Chinese passport!

We visited Birmingham Airport to find out how people travel around the world. We got to weigh our suitcase and pretend to check in. We met police officers, travelled on the monorail and watched planes take off and land from the flight school!

We made our own passports and pretended to board a plane to China. Our teachers were the airport staff and air hostesses for the morning!

We enjoyed learning all about travel, China and the Chinese culture - even celebrating Chinese New Year by tasting some Chinese food and creating a Chinese dragon dance.
