

Year 2 Newsletter – Week Ending Friday 6th February 2020

This week we have been writing a character description for the princess. We have been trying to use adverb openers, adjectives and conjunctions to make our writing better! The children will use this to help them next week, when they write their own character descriptions for Billy the Brave Knight. In Art we have started looking at LS Lowry and his famous pieces of art. We experimented with adding white and black to colours to show light and shade. All the children enjoyed the introduction to the topic Chocolate. They made chocolate rice crispy cakes, tasted three flavours of chocolate and designed their own chocolate bar.

Reminders

Forest Rangers – If the Forest Rangers site is open, it is 2A's turn to enjoy the forest area. The children will need to bring in their Forest Rangers clothes, in case the site is opened on Monday. If the site remains closed, 2A will go on a Welly Walk. For a Welly Walk the children will not get changed, but will wear their wellies that they have in school. Please ensure the children come to school with a coat, hat and gloves.

Cadbury World Trip – Just a reminder that we still have a few children who have not paid for our trip. Please pay for your child via Parentpay, to ensure the trip can take place. Thank you to those parents who have already paid ☺

Have a lovely weekend! – Mrs Ashforth, Miss Allen and Miss Jones ☺

Assessment week: Well done!

Well done to all the children for working so hard this week!

World Book Day:

Well done to all the children, they all looked super in their pyjamas for cosy reading!

In Year Two, we enjoyed our cosy reading café! The children used their knowledge of money, to pay for their biscuits and squash.

We also spent some time reading Charlie and the Chocolate Factory, thinking about how Augustus Gloop felt when he fell into the chocolate river.

Arithmetic-

Below are links to great games the children can play, that will have them practice their arithmetic skills. It would be good for children to practice the four operations (addition, subtraction, multiplication and division)
