

YR4 NEWSLETTER

Week beginning 8.4.19

Spelling Focus:

4AW: the prefix ir- for words beginning with r

4VW: words with the sounds gue (g) and que (c)

4B: the prefix ir- for words beginning with r

Science homework

A reminder that this half term, the children have the optional homework of conducting a science experiment, which they can present in a creative way. The homework is due on Monday 29th April. More information can be found on the original letter, but if you require another copy then please see your class teacher.

Maths

After half-term, we will be starting to learn about time as a unit of measurement and the children will be reading and writing time on analogue and digital clocks. If your child has an analogue watch, we would encourage them to wear this to school if it is not valuable.

4B class assembly

The date for 4B's class assembly will be Friday 14th June, 2pm-3pm.

We hope all the children have a lovely and safe Easter holiday!

With thanks,

Miss Wells

Miss Willcox

Miss Brown
