

# 19th March 2018 Our Week Ahead

## Our week ahead - What are we going to be learning?

- Next week we are having a 'Science' week as part of our 'Understanding The World' area of the curriculum.
- We are going to be doing lots of investigations and experiments, talking about what we can see / hear / smell / feel.
- What a prediction is and making some of our own.
- Please ask your children what investigations they have been experiencing – we hope they will have lots of exciting things to tell you and look out in the classroom windows for our photographs.
- We will have new arrivals hatching in our classrooms, just in time for Easter!
- A visit from the animal lady where we will get to meet some unusual animals.
- Counting in groups practically, in 2s and 10s.
- Using language to describe length and shape.

**Parents evening:** start next week!

**Wednesday 21<sup>st</sup> March 2.30 – 7.00 & Tuesday 27<sup>th</sup> March 3.30 – 7.00**

Please ensure you have signed up, it is vital that we meet everyone to discuss your child's next steps. If there are any problems please speak to your class teacher. We look forward to seeing you all.

### **Forest School fire morning: Friday 23<sup>rd</sup> March**

To finish off our science week we are taking Reception down to Forest School to have a go at cooking 'damper dough' on the fire!

Please can all the children come in their old clothes on Friday **instead** of their usual forest school day. If any of our parent helpers are available on the Friday we would welcome the extra help!

### **W.O.W – Word Of the Week.**

This week's word is: **experiment**

*"What scientists use to find things out."*

### **Book Fair:**

The book fair will be in the new hall from Monday 20th - Wednesday 22nd November from 3.15 - 4pm.

Why not have a look and treat your child to a new book if they've had a good report at parents evening.

### **Work at home:** ☺

This week your homework is science based!

Can you do an experiment involving a balloon? There are lots of ideas on pinterest.

E.g. can you see how many different sounds you can make with a balloon?

We would love to see photos of your experiment.

### **Sports Relief:**

Next week we will be raising money for sports relief by doing a special dance and asking for a 50p donation. The children can come in 'dancewear' on the day they do PE normally!
