

English	Children will be focusing on more story work linked to traditional African tales. The writing will be based on 'How the elephant got its trunk' which they will learn as a WAGOLL. Our sentence work will focus on punctuating speech correctly and using different types of openers.
Maths	Children will continue to reinforce mental and written calculation strategies for addition, subtraction, multiplication and division, applying this knowledge to solve worded problems. They will also solve missing number problems and work on mathematical investigations. Children will carry out practical work looking at position and movement, using associated mathematical vocabulary. As well as this, they will look at measurements, practically measuring length, capacity and weight.
Science	Not covered this half term.
Computing	Linked with Geography, children will use Google Earth to explore the continents. They will locate Kenya and Wythall and use Street View to navigate around the local area.
History	Not covered this half term.
Geography	Children will learn about what life is like in Kenya and compare this to their own lives. They will locate countries and key features on a map. They will also use a map of the local area to follow a route and learn about the use of a 'key'.
Physical Education	The children will continue to go swimming every week and will develop their swimming skills. Children will also develop their ball skills focusing on throwing, catching, bowling and batting.
Art and Design	During this half term, children will take part in Year 3's Arts Week focusing on African art. Children will design and make their own African masks using a 'papier-mâché' technique. They will also create their own Savannah sunset picture.
Design and Technology	Not covered this half term.
Music	During this half term the children will be learn about African Slave songs, they will be given the opportunity to perform the songs and create a musical accompaniment, using a range of instruments.
Religious Education	Children will look at Hinduism, finding out about India and the Hindu faith.
PSHE	Weekly whole school assembly themes (see assembly themes) and relevant whole class THRIVE activities. We have also introduced our class 'Worry Eater' and using this to inform our PSHE sessions.
Spanish	Children will use songs and rhymes to learn the days and the

	week and the months of the year. They will create their own calendars displaying the months.
