

Moving On, Moving Up!

| | |
|--------------------------------|---|
| English | We work in class groups to research and compose a short story to make into a book and give to our Reception buddies on the last day. We also compose our personal entry for our Year 6 Leavers' book. We use our Google Drives to design and share our work for the buddy stories and memory books. We make use of the collaborative features to edit and give feedback to others. We also learn how to manipulate images and use filter tools in google search to get suitable images. |
| Maths | We undertake investigative work on circles by testing the ratio of pi and learning how to calculate circumference and area of a circle. We learn how to use a compass accurately and produce some mathematical art work. We also investigate magic squares and tangrams. We also complete a Business Enterprise project that requires practical maths involving money! |
| Science | Weekly science lessons to recap and consolidate our understanding of the Key Stage 2 curriculum. This half-term's focus is on the chemistry discipline. |
| Computing | 'We are Marketeers' - The pupils develop a corporate identity and design printed and digital promotional materials for their new app. |
| History | Not covered during this half term. |
| Geography | |
| Physical Education | Throughout the summer term, the children develop their athletics skills in track and field events. They learn and apply more advanced rules and game strategies in rounders and cricket. Outdoor adventurous pursuits are developed through the Year 6 residential to Malvern Outdoor Activity Centre. |
| Art & Design | The children participate in a pottery workshop with a local craftsperson. Business Enterprise project: |
| Design & Technology | The children work in teams to research, develop and design an activity stall to run at the school summer fete. The children are responsible for preparing an equipment list and requesting materials, designing and making any necessary equipment, designing promotional materials, agreeing the rules of their game and also setting up a work rota. They also use their maths skills to 'cost up' their stall and agree prices for the game / activity. |
| Music | Children prepare and practise songs and musical performances for their Y6 leavers' assembly. Children participate in a weekly Key Stage music assembly. |
| RE | The children will complete their unit of work on Fair Trade from Summer 1. |
| PSHE | During this final term, we complete our SRE and Drugs Ed lessons. We also explore the theme of 'transition to high school' with the children. We also reflect back on our primary school experiences and discuss achievements and goals for the future. |
| Spanish (KS2 only) | Children will continue to use songs and rhymes to learn the days of the week and the months of the year. They will also find out about different Spanish festivals and traditions including the famous 'Running of the Bulls'. |
